

Experience the Power of Bio-Plex® Technology for Biomarker Discovery

You are cordially invited!

Join us for a seminar and
hands on Bio-Plex® workshop

Protein measurement by Bio-Plex Multiplex magnetic bead based assays will enable you to generate more data points in less time and save on precious samples. Hear how this technology can be applied to accelerate your research. Learn how to run the Bio-Plex® system, work through the assay protocol and analyse your data with best practices and tips throughout the session.

Presented by Dr Nishen Naidoo, Field Application Specialist, Bio-Rad Laboratories

Date : Wednesday 16th May, 2018

Seminar Time : 10:00- 11:00am

Hands on Workshop Time: 11:00am-4:00pm

Live run using the Bio-Plex Pro™ Human 8-Plex Cytokine Assay

Please note that the this includes several incubation and wash steps as per the assay protocol.

Venue : Room 3000

***Numbers are limited for the hands on workshop.
Please contact Jennifer McMahon to RSVP by 11/05/2018.
